## MUNICIPAL RAT CONTROL PROGRAM Sponsored by The Allegheny County Health Department And Participating Municipal Governments

### Bait Consent Form and Record

On this date \_\_\_\_\_, I, being owner/tenant of the property located at \_\_\_\_\_, Allegheny County, Pennsylvania, willingly authorize the use of a rodenticide on this property, for the control of rats. I know that only professional pest control operators, employed by municipal governments and certified in public health pest management, may provide service in residential areas, with minimal risk to the public. I am also aware that this rodenticide can be hazardous to non-target animals, such as cats and dogs.

I do \_\_\_\_\_, do not \_\_\_\_\_, own a household pet. I verify that I will adequately control my pet(s) during the baiting period. I am aware of the locations where bait was placed on my property.

I, therefore, agree to absolve the County of Allegheny and Harrison Township, its employees/agents, or any responsibility or liability in this matter.

Owner/tenant signature: \_\_\_\_\_

Municipal Agent: \_\_\_\_\_
